Overview

Want to become a professional web developer? This is how it's done. In this intensive, fully immersive 12-months course with 11-months of learning and 3-months internship, we'll teach you everything you need to know to unlock your spot in one of the fastest-growing industries.

- 01** Learn from professional developers in an international environment
- 02** Develop your own project under the guidance of our mentors
- 03** Get our full support and follow-up for your ongoing job placement

What Will I Learn?

Git & GitHub

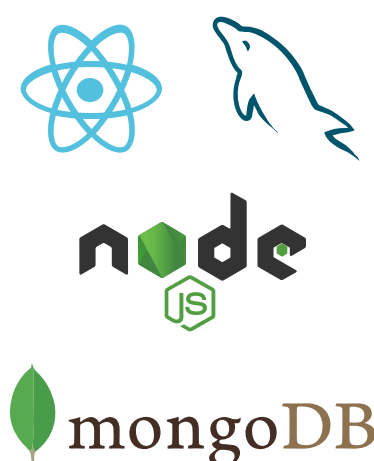

Learn version control and development in teams with technologies such as Git and services like GitHub.

***DCI is a GitHub Campus Partner School**

Web Design and Programming 101

Build a foundation and learn the core skills of development, with HTML, CSS and JavaScript.

MVC Frameworks - SPA's & Specialization

Find the area that suits you best and specialise in your preferred technology be it, React, Node.js or Databases.

Download Syllabus

What To Expect

More than just classwork

Beyond building the hard skills in class, you need to get involved in the local tech scene and market yourself. We're here to help you succeed with career development support and opportunities to get into the community.

Career workshops

Preparing an industry-specific resume to creating an online presence, you'll pick up the skills to stand out.

Guest speakers

Additional specialised sessions from top professionals and get tips from DCI alumni.

Company Tours

Take a tour of a local startup and see what the work environment is all about.

A Success Story

What Our Graduates Have Built

"I didn't think it would be so easy to begin a career as a Web Developer and with some hard work that's what I'm doing!"
